> New Goods. W. D. FISHER, now receiving his rich and eleg-SPRING STOCK Foreign and Domestic Dry Goods,

I bought one of Atkins' Self-Raking Respons in 5t. I have only with it, each season, about two hundred access of grain and about one hundred tone of green. However, the west of grain and about one hundred tone of green. However, the first machines built by Mr. Wright and community is not so perfect in every particular as he note builds them; yet the working of it has been attended with Jill. DRESS TRIMMINGS, for difficulties tracition goes out of repair and is very subseastinily build. No harvesting tracition is equal to be to, here
y, ledged or ranged grain. These used it throughly to
this particular. I know that it will not full where other chis particular. I know that is will not fail where other reaping mechines prove essative or quite unders. The reaking approxime in grain of this kind will lay the goods in a fair change for the duty, where a case with a land-reak counted on othing with it more than to get it of the platform in the most tempted and confused shape. It is easy upon a tempted at the first battle forget and the wide-formed lat from table to get out of order. However, has above of the resire, and here the genetics so much better change the time to the manufacture of the time to the country of the reaking and the wide to the relative to the country of the blood of another the genetics so much better change the time to the time to the country of the shade to the country of the time to the country of the country of
